

Recruitments for: Hurricane Harvey, Irma, Mexico Earthquake

GISCorps calls for assistance for hurricane Harvey, hurricane Irma, and Mexico earthquake

HOTOSM tasks - Mexico earthquake – Project is Active

Dear GISCorps HOT Volunteers,

We do not yet have specific project requests for Irma or the Mexico Earthquake, but there are very active efforts happening with our friends at HOT.

In addition to the Irma tasks we alerted you to a few days ago, there are now tasks underway for the Mexico Earthquake. HOT requested intermediate to advanced digitizers for the Mexico tasks due to the density of the buildings: <http://bit.ly/MXEarthquakeMapping>.

If available, please sign up with your name and OSM ID in this spreadsheet so we can credit your hours when the tasks are complete: <http://tinyurl.com/y7jxbrye>

HOT has graciously offered to provide a training on using the JOSM editor tomorrow Sunday, September 10 at 10:00 AM EDT. If you would like to be included, please flag the training column in the spreadsheet above.

Please join the GISCorps Slack group for communication (#giscorps_hotosm channel):

More about HOT activations can be found here: https://www.hotosm.org/updates/2017-09-09_hot_activates_for_three_disasters_hurricane_irma_mexico_earthquake_bangladesh

Thank you,

GISCorps Recruitment Committee

HOTOSM tasks - Hurricane Irma – Project is active

Dear GISCorps volunteers,

As of this moment, we haven't received a request for volunteers from any organizations for hurricane Irma, however, we encourage our volunteers to contribute by joining the Humanitarian OpenStreetMap (HOT) in mapping the affected areas. More information is found at: http://tasks.hotosm.org/?sort_by=priority&direction=asc&search=Irma.

Please drop your name and OSM ID in this spreadsheet and your total hours "after" your work is completed: <http://bit.ly/2wl8GCZ>.

Thank you,

GISCorps Recruitment Committee

Crowd sourcing project with NAPSG - Hurricane Irma - Project is Active

Dear GISCorps volunteers,

We would like to invite you to participate in a crowd sourcing project for hurricane Irma led by NAPSG Foundation (www.napsgfoundation.org). This project is very similar to the one that we sent for Harvey last week.

Please read the instructions from here: <http://bit.ly/2f4LbKL> and then add the photos to this application: <http://bit.ly/IrmaPhotos>.

Please add your name, email address, and total number of hours (at the end of the project) to this spreadsheet: <http://bit.ly/2wJFTfz>.

Thank you,

GISCorps Recruitment Committee

GIS Programmer/Web App Developer - Hurricane Harvey – Position is filled

Dear GISCorps volunteers

As the nation's health protection agency, CDC saves lives and protects people from health, safety, and security threats. They are actively involved in the recovery stage of hurricane Harvey and have contacted GISCorps to make a GIS programmer available to them.

The specific need is for a Python programmer with ArcGIS web map and app skills. Work entails downloading daily, data from a FEMA REST service of shelters, storing in a geodatabase, and developing a web map and app as a dashboard of the shelters depicting population over time.

Thank you,

GISCorps Recruitment Committee

Crowd sourcing project with NAPSG - Hurricane Harvey – Project is closed

Dear GISCorps volunteers,

We have learned about a crowd sourcing project for hurricane Harvey which could use your help.

Please read the instructions from here: <http://bit.ly/2f4LbKL>.

Thank you,

GISCorps Recruitment Team

Fort Bend County project – Hurricane Harvey – Project is closed

Dear GISCorps Volunteers,

GISCorps is preparing for a multi-faceted response to the Hurricane Harvey disaster in Texas. If you are interested and available, please fill out this short pre-screening survey, so we can better direct our recruiting. This survey does not guarantee placement as project needs are still forthcoming.
